

BELT CONVEYORS

VALUE POINTS

- **LIGHT-WEIGHT ALUMINIUM FRAME**
which allows one man to move the conveyor by himself.
- **UNIQUE MODULAR SYSTEM**
Only the worn-out parts have to be replaced — thus keeping the maintenance costs at a minimum.
- **SIDE BATTENS**
Aluminium and PVC.
- **A VARIETY OF PVC BELTS**
PVC belt with 10 mm high carriers as a standard, but there are many options.
- **INCL. FEEDER & UNDERCARRIAGE**
No sudden extra expenses.
- **SELF-CLEANING & -COOLING PLATES**
Since the steel plates are perforated, the machinery cleans and cools itself during operations.
- **OPTIONAL X-TRA WIDE FEEDER**
for loading with a wheelbarrow.
